(1) Specific Goals for the Course

This course aims to prepare students for their applications to postgraduate studies or jobs. In this course, students will begin by writing their own CV, Cover Letter, and Personal Statement, which can be used later for real-life application processes. In the second half of the course, students will prepare for a job interview by practicing proper manners and dress, answering various types of questions at different levels of detail, and using words carefully to make themselves stand out as a candidate. The course will culminate with a mock interview, which will be assessed according to mastery of all of the concepts presented in the course.

By the end of the course, students should be able to:

- (i) Use strong oral and written communication skills to express their research strengths and skills. (Support Graduation Requirements Indicator 10-1)
- (ii) Use suitable English vocabulary and grammar to present themselves as international professionals. (Support Graduation Requirements Indicator 10-3)

(2) Topics for the Course

At the end of this course, students will be able to:

- Properly introduce themselves and conduct themselves professionally in a formal setting.
- Logically organize and present their education, work background, and skills.
- Fill in the details of a cover letter, write with a formal tone, and tailor it to each place they wish to apply.
- Write a personal statement with relevant details that highlight their experience.
- Concisely answer basic interview questions such as “Why do you want this job?” and “What is your plan for the next five years?” as well as give detailed answers to in-depth questions such as “What is your greatest weakness?” and “Why should we hire you?”

- Ask and answer interview questions posed by classmates in preparation for final interviews.

(3) Assessments for the Course

- **Course Score = CV (CV, 40%) + Personal Statement (PS, 20%) + Final Interview (FI, 40%)**
- **Achievement of Course Goal = (CV Mean Score*CV Weight*0.4 + PS Mean Score*PS Weight*0.2) + FI Mean Score*FI Weight*0.4) / (100*CV Weight*0.4 + 100*PS Weight*0.2 + 100*FI Weight*0.4)**
